JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

plement and an excellent index covering both the original treatise and the supplement.

It is to be regretted that the large number of decisions in interstate commerce cases, and the exigencies of publishers, made it necessary for this volume to be published before it was possible to know the effect of the amendments made by the Mann-Elkins Law in actual operation, but presumably Mr. Drinker will add to his book at a later time. Its value to attorneys handling interstate commerce cases would justify him in doing so.

WILLIS AND OLIVER'S ROMAN LAW EXAMINATION GUIDE FOR BAR AND UNIVERSITY (Questions and Answers). Third Edition, partly rewritten. By David T. Oliver, LL.M., of Trinity Hall, Cambridge, Barrister at Law, and W. Nalder Williams, M.A., LL.B., Lecturer at Selwyn College and formerly Scholar of Trinity College, Cambridge. London: Butterworth & Co. 1910. pp. x, 385, 21 (index).

Americans will be interested in this book chiefly as an indication of the sort of examination in Roman law which is exacted of candidates for the Bar in England. It is intended for students preparing for English examinations only, and is made up from questions set in actual examinations. One must not expect too much under such circumstances, and, considering the necessary limitations, the work seems to have been done well — certainly much more thoroughly and critically than is usual in such books. A student who had read carefully might well find here a useful review. But American examinations in Roman law are not of such a character as to make a book of this kind expedient, and for other uses than preparation for examination it would not be worth while.
